Cambridge July 29th 1775.

Sir,

I have this Instt. received a letter from Chelsea, of which the Inclosed is an extract — As the Inhabitants are coming out in a Body, & General Mason has proposed to your Assembly to Relieve them for the Time to come, I have detained the Bearer a Moment, that you might have an Opportunity for the earliest Information of it, and request that you may take the Matter into Consideration — & determine what is proper to be done on this occasion — If you think it Prudent to send them in this manner, every Man in the Province will be ready to support & defend them.

James Lasle, Esq. Speaker
